

Horizons ETFs Rebalances the Horizons Emerging Marijuana Growers Index ETF (HMJR)

TORONTO – March 29, 2019 – Horizons ETFs Management (Canada) Inc. (“**Horizons ETFs**”) has completed the quarterly rebalance of the constituent holdings of the **Horizons Emerging Marijuana Growers Index ETF** (“**HMJR:NEO**”).

HMJR seeks to replicate, to the extent possible, the performance of the Emerging Marijuana Growers Index, net of expenses. The Emerging Marijuana Growers Index is designed to provide exposure to the performance of a basket of primarily North American publicly listed small-capitalization companies primarily involved in the cultivation, production and/or distribution of marijuana.

HMJR invests in small-market-capitalization companies with market capitalizations generally between CAD \$50 million and CAD \$500 million. The ETF’s portfolio is 100% invested in marijuana producers and distributors, and it can have exposure to companies outside of North America.
